## Marketing Platform

Update

### Online Scheduling Tool Now Allows You to Choose Operatory View or Provider View

You have two types of calendars in RevenueWell: An operatory calendar and a provider calendar. You can customize which one drives availability in the Online Scheduling tool – which is another convenient way to manage your busy schedule. For billing purposes, some practices default to the provider view on all appointments. Rest assured that your patients will not see your Operatory names when they're booking appointments. They'll simply see which times are available!

To set up your Operatory view in the online scheduling tool, check out our help center.

New Feature

### CareCredit Now Integrates with RevenueWell Marketing Platform

RevenueWell now offers visibility into which of your patients currently have CareCredit accounts or those patients who are pre-approved for the CareCredit credit card! This partnership allows you to help support your patients in paying for their procedures – while ensuring you get paid immediately! This integration is available for anyone who has a Marketing Platform subscription and is included in your monthly subscription cost.

Wondering how you can connect your Marketing Platform with CareCredit? Learn more now.

As always, if you have questions or feedback about this release feel free to reach out to our support team via [support@revenuewell.com](mailto:support@revenuewell.com)
